SUMMARY

Full-stack developer building **AI-powered applications and LLM systems**. Experienced in **React, Next.js, Node.js, and modern GenAI stacks including embeddings, vector databases, and RAG pipelines**. Built multiple AI products including trend detection systems, automation platforms, and full-stack SaaS applications.

TECHNICAL SKILLS

Languages:	Python, JavaScript
Frontend:	React.js, Next.js, Material UI, HTML, CSS
Backend:	Node.js, Express.js, REST APIs, Authentication (JWT)
GenAI / AI Systems:	LLM Applications, RAG Pipelines, LangChain, Embeddings, Prompt Engineering
AI Platforms:	OpenAI API, Claude API, Gemini API, Ollama
Databases:	MongoDB, PostgreSQL, Supabase, Qdrant (Vector DB)
Tools:	Git, GitHub, Streamlit, Notion, Figma
Deployment:	Vercel, Netlify, Render, Railway

EXPERIENCE

Frontend Software Developer Intern

Sep 2025 - Jan 2026

Vosyn — Canada (Remote)

- Built responsive UI components using **React.js, Redux, and Material UI**
- Collaborated with backend and cloud teams in **Agile/Scrum development cycles**
- Contributed to investor-facing platforms using **WordPress and Avada Builder**
- Maintained development workflows and documentation using **GitHub and Notion**

AICTE Internship — Artificial Intelligence

Nov 2024 - Dec 2024

Microsoft & SAP — Remote

- Developed a **data analytics web application using Python and Streamlit**
- Built pipelines to analyze real-world shopping datasets
- Designed dashboards to generate automated insights and visualizations
- Participated in mentorship sessions with **Microsoft and SAP engineers**

PROJECTS

SignalWeave — AI Trend Detection System (signalweave.vercel.app)

Built a **multi-agent AI system** detecting emerging trends from weak signals. Implemented semantic embeddings using **SentenceTransformers** and vector search pipelines with **Qdrant Cloud**. Generated automated analytical summaries of evolving trends.

SensAI — AI Career Intelligence Platform (sensai-main.vercel.app)

Built a **full-stack AI platform** for personalized career guidance. Implemented **LLM-powered recommendations and interview simulations**. Designed intelligent learning path generation and job readiness systems.

PayLoop — Subscription Payment Tracker (github.com/Yaser-123/payloop)

Built a **full-stack SaaS application** using Node.js, Express, and MongoDB. Implemented **JWT authentication, rate limiting, and bot protection**. Developed automated email reminders for recurring payments. Enabled **40+ users** to track subscriptions securely.

ContextOS — AI Context Intelligence Platform (contextoperatingsystem.vercel.app)

Built a **Chrome Extension (Manifest V3)** capturing user digital activity context. Developed pipelines converting activity data into structured daily plans. Integrated **AI workflow orchestration using Kestra**.

InfoZap — AI Web Scraping Intelligence Platform (github.com/Yaser-123/infozap)

Built AI-powered scraping system using **Python, Streamlit, and Ollama**. Implemented automated pipelines for large-scale information extraction. Developed dashboards for monitoring and analyzing extracted data.

SELECTED ACHIEVEMENTS

- **Global Rank #2** — Convolve 4.0 PAN-IIT Hackathon
- **Top 1%** — Summer Analytics 2025 (IIT Guwahati)
- **Rank #1** — IndiaSkills Telangana Regional Competition
- **2nd Place** — Indian National Academy of Engineering Youth Conclave Project Expo
- **4th Place** — Vinyasa Summer of Code Open Source Challenge

EDUCATION

B.E. Computer Science Engineering, Lords Institute of Engineering & Technology Expected Graduation: 2027
CGPA: **9.0 / 10**

RESEARCH

FinanceHub — AI Personal Finance Assistant (*Published in IJEDR*)

Designed an AI-powered finance assistant integrating **GPT-4.1 for financial insights**. Built LLM pipelines for financial analysis and productivity recommendations.

LEADERSHIP

- **Lead Manager — Mobile Application Developer Club**: Led technical teams across multiple hackathons including **PAN-IIT competitions**. Coordinated project development, idea validation, and technical strategy.
- **Hackathon Leader**: Led teams in **SIH, Hackprix, and Bhasha Bhandhu**, delivering solutions under tight deadlines.
